⁶
~~25.~~ The method of Claim ~~25~~³ wherein the alkanolic acid is octanoic acid, decanoic acid, dodecanoic acid, or tetradecanoic acid.

REMARKS

This application is directed to the C₂₋₂₀ alkanolic acid esters of 3-[2-[4-(6-fluoro-1,2-benzisoxazol-3-yl)-1-piperidinyl]ethyl]-6,7,8,9-tetrahydro-9-hydroxy-2-methyl-4H-pyrido[1,2-a]pyrimidin-4-one, to pharmaceutical compositions containing the same, and to a method of treating warm-blooded mammals suffering from psychotic diseases by administering the same. The claimed compounds are the C₂₋₂₀ alkanolic acid esters of 9-hydroxyrisperidone, that is, those compounds of Formula (I) wherein R¹ = 6-fluoro, R² = 2-methyl, R³ = R⁴-C(=O)O- wherein R⁴ = C₁₋₁₉alkyl, and Alk = ethanediyl. The sub-generic claims are directed to the compounds, composition and method-of-use wherein the alkanolic acid is octanoic acid, decanoic acid, dodecanoic acid, or tetradecanoic acid, as recited in original Claims 5, 11 and 17.

Early favorable action on the merits of this application is respectfully requested.

Respectfully submitted,
